Here's How Our Pricing Works:

Hours Worked On Site

(95/Hour *1-hour minimum)

+

Trip Charge

(Usually $35)

+

Parts and/or software

(If needed)

= Total Cost

Hours Worked Remote or Drop Off

(Only $85/hr Residential customers on site - check here for first call specials [7]!)

+

Parts and/or software

(If needed)

= Total Cost

It really is that simple.

For a list of common issues such as virus repair, networking, or optimization/speed increase check our FAQ [8]

Commercial Service Hourly Rates:

Business On-Site Service: $95 per hour Check here for new customer discounts and specials [7]. A one-hour minimum applies to Business On-Site service. The cost of any parts needed such as a hard drive, router, etc. will be added to the service charge described above.

Commercial Remote Access Service: $85 per hour, 1/2 hour minium. *Some situations will require a site visit, in which case Remote Access Service and Pricing can not be applied.

In-Shop Service: PcComputerGuy now offers customers the option to drop off their computer and pick it up when the repairs are complete. Advantages of this option include significant cost savings: 1) For In-Shop service, we generally charge a maximum of three hours, even if the job takes longer to complete. (This may not apply in rare circumstances such as data-recovery. Your technician will discuss all of the details with you prior to completing the work.) In-Shop service is billed at $85 per hour with a one-hour minimum. New customers will receive the $10 per hour New-Customer special. 2) For In-Shop service, there is no trip-charge, saving customers anywhere from $20-$50 depending on customer type.
